

Channel Partner Scorecard (CPSC) Monthly Scorecard Guidelines w.e.f 1st July 2019

(Version 3.0)

Dear Channel Partner,

Tata Motors Channel Partner Scorecard (CPSC) program is based on the Tata Motors Balanced Scorecard framework, which translates strategic objectives into a comprehensive set of performance measures categorized into Financial, Customer, Business processes and Learning & Development perspectives for its channel partners. The parameters flowing in to the CPSC program cascades from the balance score card parameters of Sales & Marketing and Customer Care and further cascades into the performance measures of dealerships.

Channel Partner Score Card (CPSC), which was first introduced in 2014, has now become the most important performance monitoring tool which not only helps you to gauge the health of your business but also help you to formulate action plan for improvements.

Based on the feedback received from many of you over the last few months, and the emerging competitive business environment, we have revised the Channel Partner Scorecard, which will be applicable from 1st July 2019.

The scorecard has equal weightage for Sales & Customer Care and has been simplified to increase focus on the key parameters, which is mix of enablers, processes and outcomes. The elements of infrastructure and customer satisfaction act as a qualifiers and a linkage to dealer infrastructure has also been created.

The following are the key updates in CPSC

- 1) Reduce the overall parameters from 17 to 16
- 2) PL wise weightages have been kept same for all the parameters
- 3) All the parameter wise scores will be available at Dealer Level

We sincerely believe that adoption of CPSC in letter & spirit will ensure that we are able to provide a superior customer experience and with that the additional incentives to help improve the profitability of the dealership.

As we move into the next phase of the CPSC program, the new CPSC will be effective from 1st July 2019

Payout

While there is no change in the CPSC payout tiers / slabs, the payout calculation methodology will be basis the below criteria:

Slab structure

S No	Tier	Average Dealer Score	Payout Slabs per vehicle
1	Excellence Tier	Score >= 800	5000
2	Super Tier	800> Score >=700	4000
3	Standard Tier	700> Score >=600	3000
4	Push-up Tier	600> Score >=500	2000
5	Look-out Tier	Score < 500	Nil

Note: The Parameters will be calculated based on data available with SHQ. There will be no changes accepted after the cutoff date for changes.

Qualifying criteria for payouts: Dealer will have to achieve minimum defined scores in the following parameters to be eligible for any payout

- BS VI Readiness and Infrastructure Audit Adherence - 100% Compliance
- PSF Sales Calling scores of 70% and above
- In case PSF Sales Scores are not above 70%, the Payout for the month in Question will be Zero.
- BSVI Readiness and Infrastructure Audit Adherence parameter will be evaluated during Q4 FY'20 and in case of non-adherence to the above conditions the respective dealer will be given Zero payouts for the financial year (In case the Q2 & Q3 payouts have been released than in case of non-compliance, TML will raise debit notes of the same amount for those quarters)

The CPSC guidelines effective 1st July 2019 are enclosed herewith. Kindly go through the same and ensure that your teams have fully understood the metrics & measures. In addition, dealership will be fully responsible for entering and maintaining, correct data in CRMDMS as we will be using the same for the scoring against many of the parameters.

Training program for new CPSC program has already started and regular training will be further planned in consultation with State Office.

Please get in touch with the Regional SNM / State Head in case any further clarification is required or email us on cpsc@tatamotors.com

We are confident you & your team will continue to leverage the CPSC monthly score card program and strive for superior performance & customer experience.

Warm Regards,

R Wasan

Vice President (Sales & Marketing, CVBU)

Thus, there will not be a predefined fixed target for working capital for the month under calculation. It is the responsibility of the dealership to keep the credit under the limit based on the offtake they expect to do during the month. Note 2: Till further notice, calculation will be based on the amount outstanding at the end of the month. Note 3: Subject to dealer giving a self-certification of all VME and FME claims being raised on line pertaining to N-2 month - else score will be zero Example: CPSC score for April is 50 for this parameter. Qualifying criteria : The dealer has to give a signed confirmation stating that all claims till February have been raised in system by the 30th April. FAQ

Q1) we have received a scorecard wherein for one parameters target is mentioned as zero then how is it possible that I have achievement percentage (%) equal to zero?

Answer: In case the target for any parameter is zero, automatically the achievement percentage will be considered zero as per the CPSC process

Q2) Dealer Team has identified some Discrepancy in Monthly Scorecard. What is the way forward?

Answer: Please raise the issue on the CPSC portal and write an email to the respective State TML team to seek clarity on scoring methodology. Kindly ensure that you raise any request for changes in scorecard on the portal within 2 days of receiving Scorecard as no request will be entertained after this time.
